(2-2" hooks included)

#TEBK01-C3
(2-3" hooks included)

The Bucket Knuckle is a tool holding and organization bracket designed to suspend and separate tools and rigging inside a bucket making them easily in reach. Made out of durable UHMW plastic, this device is extremely wear resistant and offers superior strength.

The Bucket Knuckle improves overall safety by allowing storage of tools inside aerial devices making them easily in reach. It fits the inside of all standard buckets/liners and hangs from 2 bucket hooks .
