

PLASTIC END CAP HOOK

Sometimes when you create your own solution to a problem the solution is so good you just have to share it. That's how the DN2X4PECH Plastic End Cap Hook was created. Instead of taking time to cut notches into 2x4s to store hot arms, just screw this cap on the end and you're good to go. You can buy the hooks separately or buy the entire assembly for one low price.

- Neatly stores hot arms in a DNS10 or DNS11 Steel Wire Basket
- Screws onto the end of a standard 2x4 (can be cut to desired length)
- Sold separately or assembled to fit DDIN Steel Wire Baskets
- Four (4) needed for a basket carrying 25 hot arms

PART #	DESCRIPTION	SIZE	WEIGHT
