THE TIGER 4001D HYDRAULIC POLE PULLER KIT

2009 SPECIAL PRICING **\$2,195.00**

This lightweight pole puller provides up to 50,120 pounds of lift at only 2,800 psi. The base plate has the lowest possible center of gravity, which reduces the possibility of tipping when working in uneven terrain. The teeth of the back plate dig deep into the pole preventing chain roll-up or slippage.

The 4001D can be powered off of a vehicle's hydraulic circuit or a portable hydraulic pump.

- The Complete Kit Includes:
- Base Plate
 - Hydraulic Cylinder
 - Swivel & Hook Assembly
 - 6 Feet of 1/2" Alloy Chain
 - Back Plate

Order The Pole Puller Pad #
HA0039 Separately.

\$281.25

Even Works On
Concrete Poles!
